**FROM:**        Ric Semonski, Supervisor of Streets

**DATE:**        March 29, 2021

**SUBJECT:**    Funding Agreement for Installation of Traffic Signal Cabinets, Controllers, Communication, Equipment, and Video Detection Systems.

**DISCUSSION:**

The Illinois Department of Transportation will be modernizing various traffic signals along IL 116, US 24 and Washington Street. The various traffic signals are listed in the attached agreement. These Signalized intersections are maintained by the State and City through previous agreements.

The said improvements will be beneficial to monitoring motor and pedestrian movements and will be permanent in nature.

The Illinois Department of Transportation has included the above-mentioned intersections in a larger scale contract. The engineer's pre-bid estimated cost for the City's portion is \$5,313 with a not-to-exceed 125% of the agency estimated construction and engineering cost. **You are approving spending \$5,313 and depending on the final award/completion cost, the City's cost will not exceed 125% of the estimated cost.** The States estimated total construction cost for this project is \$596,390.

**RECOMMENDATION:** I recommend that the City approve the Agreement between the City and the Illinois Department of Transportation as summarized above and described in the attached agreement. The City's cost for this project will be paid from its Street Operations and Maintenance budget line item 11-00-0-054.
