

East Peoria Police Department

TO: The Honorable Mayor and the City Council
THRU: Morgan Cadwalader, City Clerk
FROM: Chief of Police Rich Brodrick
DATE: April 12, 2021
SUBJECT: Susteen Secure View Mobile Forensics Grant

DISCUSSION: The Police Department investigations unit currently has one option for completing forensic downloads of digital data from devices acquired during criminal investigations. The technology today far surpasses the capabilities of the Ufed forensic tool currently in use. We applied for and were selected to receive a grant that has matching funds for another option that will gather additional data that the Ufed cannot. Between the two platforms, investigators will gain efficiency as they will not have to take as many items to another agency for processing where they are bound by the other agency's speed and workload. They will also gain additional data as stated above, and the ability to not stagnate investigations waiting on other agencies to provide them the data. This device and its components also can be used in the field for onsite digital forensics.

Susteen, a company in the digital forensic business offers the second option, called Secure View. With the grant the department will get the following items:
A Datapilot 10 (Hardware), Techno Power Kit, APEX (Cloud analyzer), Analytics, Secure View 4 (Software), and training for all these items. (Information also attached)

The total for the grant \$9,975.00 The City match is \$6,335.00, (To be paid from drug enforcement fund) and approximately \$1,000 annually thereafter for updates and maintenance of software.

RECOMMENDATION: Approval of the grant agreement between Susteen and the East Peoria Police Department for forensic download hardware and software (hereto attached).
